## Percentage of reclaimed products and their packaging materials for each material category

## Percentage of products sold and their packaging materials that are reclaimed by category

LOTOS OIL

Data in Mg

| Name   | Lubricants Haza | ardous packaging | Packaging | Lubricating preparations |
|--|-----------------|------------------|-----------|--------------------------|
| Volume of products and packaging materials reclaimed during the reporting period | 24 354.85       | 6.47             | 1 636.17  | 1609.92                  |
| Volume of products sold during the reporting period*                             | 28 652.76       | 8.088            | 2682.238  | 2639.209                 |
| Percentage of products sold and packaging materials that were reclaimed          | 85.0%           | 80.0%            | 61.0%     | 61.0%                    |
| Increase of reclaim compared to 2017   | 35.0%           | 50.0%            | 0.0%      | 31.0%                    |

<sup>\*</sup> For the calculation of the obtained percentage of reclaim products and packaging, the mass of introduced products/packaging in the year preceding the reporting year is taken into account. If you enter data from the reporting year, other than statutory percentages of waste subject to recovery will come out.
